About the Organizer: DME Law School

Delhi Metropolitan Education (DME) is a leading college affiliated with Guru Gobind Singh Indraprastha University, New Delhi. Within its wonderful campus, three Schools are running at full strength imparting education in the domain of Media, Management, and Law. DME Law School runs two professional courses, namely, BA.LLB and BBA.LLB aimed at providing students with understanding and expertise across all fields of law, with equal focus on giving them hands-on experience of the world of law through moot courts, internships in tier 1 law firms, companies, and chambers of top lawyers of Delhi as well as through visits to courts and tribunals from time to time.

About the Workshop

Under the guidance of the forever supportive Prof. (Dr.) Rashmi K. Nagpal, Additional Director, Delhi Metropolitan Education, a 1-day Workshop on Intellectual Property Rights is being organized on 6th April 2023.

Intellectual property rights (IPR) are ideas, innovations, and creative expressions on which the status of the property is conferred. They are a type of legal protection for creations of the mind, such as inventions, literary and artistic works, symbols, and designs. The purpose of these rights is to encourage creativity and innovation by giving creators the exclusive right to use and benefit from their work and to profit commercially from them.

Despite the fact that India has joined the global patent system, students passing out even from the premier academic institutions continue to lack practical knowledge and experience in the field of intellectual property rights. This necessitates maintaining a proper balance and fine-tuning of academic brilliance with academic integrity, as well as the protection and utilization of intellectual property rights, which is becoming increasingly important for colleges and universities.

The current Workshop is a step in this direction, bridging the gap between innovation and IPR filings by familiarizing participants with best practices for protecting against IP violations and enforcing strong IPR filing mechanisms. It is crafted in a manner that students interested in understanding the importance and practical aspects of IPR will definitely benefit from it.

Thematics of the Workshop

- Overview of IPR - what it is and why it's important
- Types of IPR - patents, trademarks, copyrights, trade secrets
- The process of obtaining IPR protection
- The role of IPR in business and innovation
- Managing and enforcing IPR
- IPR in the digital age and issues with online infringement
- International protection and agreements on IPR.

Details of the Event:

The 1-day workshop will include a session by a guest speaker having academic expertise in the domain of IPR and a separate session from an expert from the industry in the form of a workshop to bring a practical perspective to the topics covered in the first session such as the mechanism of filing for IP protection, with special focus on patent filing. It shall be followed by a small fun exercise consisting of a quiz for the students to gauge the understanding achieved by them and there will be goodies to incentivize their participation.

Objectives:

The workshop shall provide participants with a comprehensive and practical understanding of this important topic and its importance in today's innovation-driven economy.

Course Structure:

Guest Lecture & Training

Eligibility:

4th-year students of BALL.B & BBALL.B (Semester- VIII)

Certificate of Participation:

Certificate of Participation will be given to those participants who will attend both the sessions.
